INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the
Carson Montessori School
Carson City, Nevada

We have audited the accompanying financial statements of the governmental activities and each major fund of the Carson Montessori School, Carson City, Nevada (the School) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and the major funds of the Carson Montessori School as of June 30, 2019, and the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Correction of Error

As described in Note 9 to the financial statements, the June 30, 2018 net position (deficit) and fund balance were restated due to the 2018 understatement of accrued liabilities and salaries expenditures/expense. Our opinions are not modified with respect to that matter.

Other Matters

Required Supplementary Information

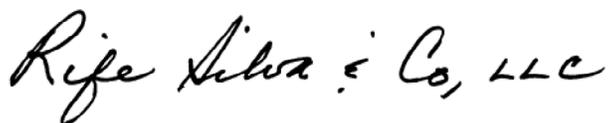

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, the required pension disclosures, and the budgetary comparison information be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited, in accordance with accounting standards generally accepted in the United States of America, the basic financial statements of the School as of and for the year ended June 30, 2018 and have issued our report thereon dated November 30, 2018, which expressed a modified opinion on the financial statements of the governmental activities. The summarized comparative information presented in the basic financial statements as of and for the year ended June 30, 2018, is consistent with the audited financial statements from which it has been derived.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2019, except for Note 11, as to which the date is January 28, 2020, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Reno, Nevada

December 16, 2019, except for Note 11, as to which the date is January 28, 2020

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

As the administration of the Carson Montessori School, we offer readers of the School's financial statements this narrative overview and analysis of its financial activities for the fiscal year ended June 30, 2019. We encourage readers to read the information presented here in conjunction with additional information that we have furnished in the School's financial statements, which follow this narrative.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the School's financial statements. The School's basic financial statements consist of three components: 1) Government-wide financial statements, 2) Fund financial statements, and 3) Notes to the financial statements. The basic financial statements present two different views of the School through the use of government-wide statements and fund financial statements. In addition to the basic financial statements, this report contains other supplemental information that will enhance the reader's understanding of the financial condition of the School.

Financial Highlights

- The School's net position (deficit) as of June 30, 2019 was \$(741,483), a decrease in net position of \$79,142 from the previous year. The most significant component of the decrease was related to an increase of \$118,230 in pension expense (arising from deferred items) reported in the Statement of Activities.
- The net increase in the governmental funds (the General and Special Education Funds) was \$54,857 for the year, as compared to a decrease of \$158,003 in the previous year.
- As discussed in Note 9 to the financial statements, a prior period adjustment of \$63,567 was made to correct the previously understated salaries and benefits accrual as of June 30, 2018 and the related expenditure/expense for the year then ended.

Basic Financial Statements

Government-Wide Financial Statements

The first two statements in the basic financial statements are the **Government-wide Financial Statements**. The government-wide financial statements are designed to provide the reader with a broad overview of the Carson Montessori School's finances, similar in format to a financial statement of a private-sector business. They provide both short and long-term information about the School's financial status.

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

The *Statement of Net Position* presents information on all of the School's assets and deferred outflows of resources (if any) and liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The *Statement of Activities* presents information showing how the School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods.

The government-wide financial statements are on pages 11 and 12 of this report.

Fund Financial Statements

The next statements are **Fund Financial Statements**. These statements focus on the activities of the individual parts of the School. These statements provide more detail than the government-wide statements. The fund financial statements for the School report the General Fund and the Special Education Fund; the School does not currently operate any proprietary or fiduciary funds.

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School uses fund accounting to ensure and reflect compliance (or non-compliance) with finance-related legal requirements, such as the Nevada Revised Statutes (NRS) and the School's regulations.

Governmental Funds – Governmental funds are used to account for those functions reported as governmental activities in the government-wide financial statements. These funds focus on how assets can readily be converted into cash flow in and out, and what monies are left at year-end that will be available for spending in the next year. Governmental funds are reported using an accounting method called *modified accrual accounting* that provides a short-term spending focus. As a result, the governmental fund financial statements give the reader a detailed short-term view that helps you determine if there are more or less financial resources available to finance the School's programs. The relationships between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds are described in reconciliations that are a part of the fund financial statements. These can be found on pages 14 and 16.

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

The focus of the governmental fund statements is on major funds. The School has two individual governmental funds, both of which are considered major funds:

- General Fund
- Special Education Fund

These funds are disclosed separately in the Governmental Funds Balance Sheet (page 13) and the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances (page 15).

Notes to the Financial Statements

The next section of the basic financial statements is the notes. The notes to the financial statements explain in detail some of the data contained in the government-wide and fund financial statements and can be found on pages 17 through 30.

Supplementary Information

The School's supplementary information is a comparison of its budgeted revenues and expenditures to the actual results achieved for the current fiscal year. The *Budgetary Comparison Schedule* can be found on pages 33-34. The School combines its General and Special Education funds into one reporting unit for this presentation. In addition to this schedule, the School provides the *required supplementary information*, which is required by the Governmental Accounting Standards Board, relative to its participation in the Public Employees' Retirement System in Nevada (PERS). This information can be found on pages 31-32.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve as one useful indicator of the School's financial condition over time. The liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$741,483 as of June 30, 2019. The School has \$6,424 of its net position, which reflects its investment in capital assets (e.g. furniture and equipment). These capital assets are used to provide educational services to its students; consequently, they are not available for future spending.

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

Below is a summary of the School's net position (deficit) for 2019 compared to 2018:

CARSON MONTESSORI SCHOOL				
NET POSITION (DEFICIT)				
	<u>2019</u>	<u>2018</u>	<u>Change</u>	
			<u>\$</u>	<u>%</u>
Assets				
Current assets	\$1,209,356	\$1,275,290	\$ (65,934)	-5.2%
Net capital assets and other	<u>23,277</u>	<u>25,630</u>	<u>(2,353)</u>	<u>-9.2%</u>
Total Assets	1,232,633	1,300,920	(68,287)	-5.2%
Deferred Outflows of Resources	<u>782,155</u>	<u>789,341</u>	<u>(7,186)</u>	<u>-0.9%</u>
Total Assets and Deferred Outflows	<u>2,014,788</u>	<u>2,090,261</u>	<u>(75,473)</u>	<u>-3.6%</u>
Liabilities				
Current liabilities	150,674	207,898	(57,224)	-27.5%
Non-current liabilities	<u>2,482,494</u>	<u>2,332,272</u>	<u>150,222</u>	<u>6.4%</u>

Deferred Inflows of Resources	<u>123,103</u>	<u>148,865</u>	<u>(25,762)</u>	<u>-17.3%</u>
Total Liabilities and Deferred Inflows	<u>2,756,271</u>	<u>2,689,035</u>	<u>67,236</u>	<u>2.5%</u>
Net Position (Deficit)				
Net investment in capital assets	6,424	8,777	(2,353)	-26.8%
Unrestricted	<u>(747,907)</u>	<u>(607,551)</u>	<u>(140,356)</u>	<u>-23.1%</u>
Total Net Position (Deficit)	<u>\$ (741,483)</u>	<u>\$ (598,774)</u>	<u>\$ (142,709)</u>	<u>-23.8%</u>

A case could be made that the largest impact on the School's financial statement in 2019 had absolutely no impact on the School's financial condition; GASB 68 (as amended by GASB 82) requires the School to recognize a net pension liability of \$2,405,386. As discussed below, users of this financial statement will gain a clearer understanding of the School's actual financial condition by adding deferred inflows related to pension and the net pension liabilities to the reported net position and subtracting deferred outflows related to pensions. The resulting net position would be \$1,004,851, which is \$1,746,334 more than the net position (deficit) reported.

GASB statements are national and apply to all governmental financial reports which are prepared in accordance with generally accepted accounting principles. Under the standards required by GASB 68, the pension liability equals the School's proportionate share of the plan's collective

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

present value of estimated future pension benefits attributable to active and inactive employees' past service, less plan assets available to pay benefits.

GASB noted that the unfunded portion of the pension and OPEB benefit promise is a present obligation of the government – part of a bargained-for-benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the School is not responsible for certain key factors affecting the balance of this liability. In Nevada, the employee shares the obligation of funding pension benefits with the employer. Contribution rates are established by State statute and are determined. Nevada's Public Employees' Retirement Act requires an adjustment in the statutory contribution rates on July 1 of each odd-numbered year, based on the actuarially determined rates indicated in the actuarial valuation report for the immediately preceding year. There is no legal means to enforce the unfunded liability of the pension and OPEB systems against the public employer.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences, are satisfied through paid time-off or termination payments. There is no repayment schedule for the pension and OPEB liabilities. Changes in pension and OPEB, contribution rates, and return on investments affect the balance of the pension and OPEB liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with the required pension payments, State statute does not assign or identify the responsible party for the unfunded portion. In accordance with GASB 68, the School's statements are prepared on an accrual basis of accounting including an annual pension expense for its proportionate share of the plan's change in net pension liability not accounted for as deferred inflows or outflows.

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

The changes in the School's net position for the years ended June 30, 2019 and 2018 are presented below:

BUDGETARY HIGHLIGHTS

The School's actual results compared to its budgeted June 30, 2019 results are presented in the accompanying "Budgetary Comparison Schedule", which can be found on pages 33-34.

**CARSON MONTESSORI SCHOOL
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2019**

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The School's capital assets consist of classroom, computer, playground, and office equipment and furniture and leasehold improvements. Additional detail can be found on page 23 of these statements.

Debt Administration

The School's long-term debt is comprised of estimates for earned personal and sick leave of the School's principal (the only employee eligible for payout of earned personal and sick leave) as well as an estimate of the future obligation for employee pensions (as discussed earlier in this document). The School has no other long-term debt.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The School's principal source of revenue is the per-pupil funding from the State of Nevada. This funding is based on a calculation of student enrollment.

This administration is committed to maintaining the highest of standards in elementary education and continues to do so through unyielding vigilance and fiscal responsibility. Our enrollment growth and prudent fiscal management have enabled us to consider options for the School's facilities. Despite our continued efforts, a viable option has not yet presented itself. Nevertheless, we remain undaunted in furtherance of the School's mission of quality education. Our search for a new facility and/or expansion options continues; therefore, the administration has maintained its assignment of \$345,000 of our June 30, 2019 General Fund balance towards this end.

REQUESTS FOR INFORMATION

This report is designed to provide an overview of the Carson Montessori School's finances for those with an interest in this area. Questions concerning any of the information found in this report or requests for additional information should be directed to Mrs. Jessica Daniels, Principal, Carson Montessori School, 2263 Mouton Drive, Carson City, NV 89706, 775/887-9500.

CARSON MONTESSORI SCHOOL

RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances - Governmental Funds	\$ 54,857
 Amounts reported for governmental activities in the Statement of Activities are different because:	
 Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of capital assets is depreciated over their estimated useful lives.	 (2,353)
 The change in the long-term portion of compensated absences is reported in the Statement of Activities. These do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.	 (13,416)
 Change in pension expense related to deferred items.	 <u>(118,230)</u>
 Change in Net Position (Deficit) - Governmental Activities	 <u><u>\$ (79,142)</u></u>

See accompanying notes.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the Carson Montessori School, Carson City, Nevada (the School) have been prepared in accordance with United States generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the authoritative standard-setting body for establishing governmental accounting and financial reporting. A summary of the School's significant accounting policies consistently applied in the preparation of the accompanying financial statements is as follows:

Reporting Entity

The School was organized to operate a public charter school sponsored by the Carson City School District, under Nevada Revised Statutes (NRS) 386.500 to 386.610. The School is governed by its Board of Directors (Board) which has decision making authority, the authority to designate management, the ability to significantly influence operations and is primarily accountable for fiscal matters. Therefore, the School is not included in any other governmental reporting entity as defined in GASB pronouncements.

Basic Financial Statements - Government-Wide Statements

The basic financial statements include both government-wide (based on the School as a whole) and fund financial statements. The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the non-fiduciary activities of the School.

In the government-wide Statement of Net Position, the governmental activities column is presented on a consolidated basis and is reflected on a full accrual, economic resource basis that recognizes all long-term assets and receivables as well as long-term debt and obligations. The School's net position is reported in two parts: invested in capital assets, and unrestricted net position. At the present time, no part of the School's net position is restricted.

The government-wide Statement of Activities reports both the gross and net cost of each of the School's functions. The functions are also supported by the general government revenues (distributive school funds and interest income not legally restricted for specific programs, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues and operating grants. Program revenues include operating grants and contributions and investment earnings legally restricted to support a specific program. Program revenue must be directly associated with the function. Operating grants include operating-specific and discretionary grants. The net costs (by function) are normally covered by general revenue.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Basic Financial Statements – Fund Financial Statements

The financial transactions of the School are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The School's resources are allocated to and accounted for in the individual funds based upon the purposes for which they are intended and the means by which spending activities are controlled.

The emphasis of the fund financial statements is on the major funds in the governmental type activity category. GASB Statement No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category) for the determination of major funds. The School's management may electively add funds as major funds, when it is determined the funds have specific community or management focus. Major individual governmental funds are reported as separate columns in the fund financial statements.

The School reports the following major **Governmental Funds**:

General Fund

The General Fund is the general operating fund of the School and accounts for all revenues and expenditures of the School not encompassed within other funds. All receipts that are not allocated by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures and capital improvement costs that are not paid through other funds are paid from the General Fund.

Special Education Fund

The Special Education Fund is a special revenue fund. The revenues are legally restricted to expenditures for special education purposes.

Measurement Focus

Government-Wide Financial Statements

The government-wide statements are prepared using the economic resources measurement focus. All assets and liabilities associated with the operation of the School are included on the Statement of Net Position. The Statement of Activities presents increases (revenues) and decreases (expenses) in total net position.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the Balance Sheet. The Statement of Revenues, Expenditures, and Changes in Fund Balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliations with brief explanations to better identify the relationship between the government-wide financial statements and the governmental funds financial statements.

Basis of Accounting

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. The government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences between the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflows/outflows, and in the presentation of expenses versus expenditures.

Revenues

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School, available means expected to be received within sixty days of the fiscal year-end.

Non-exchange transactions, in which the School receives value without directly giving equal value in return, include grants, entitlements and donations for which the revenue is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the School must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the School on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are deemed both measurable and available at fiscal year-end: investment earnings, grants and entitlements.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Deferred Inflows/Outflows of Resources

In addition to assets, the Statement of Net Position and Balance Sheet will sometimes report a separate section for deferred *outflows* of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expenditure) until then. The School's deferred outflows are related to its pension contributions, as discussed in Note 7.

In addition to liabilities, the Statement of Net Position reports a separate section for deferred *inflows* of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until then. Special Education funds received in advance of the year for which they are intended to finance have been recorded as deferred inflows of resources on the Statement of Net Position and Balance Sheet. In addition, the Statement of Net Position reports deferred inflows related to its pension expense, as also discussed in Note 7.

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in the governmental funds.

Budgets and Budgetary Accounting

The School adheres to policies set forth by the Nevada Department of Education (Department) to adopt a final budget not later than June 8 for the subsequent school year. The School is not required nor prohibited by the Department to amend its budget during the year. The budget was amended for the current fiscal year. The original and final budgets are compared to the actual revenues and expenditures and are presented in the accompanying supplementary information. The School combines its General and Special Education funds into one reporting unit for the budgetary comparison schedule presented as required supplementary information on pages 33 – 34.

Deposits

Amounts are on deposit with the lessor of the School's operating facilities.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Capital Assets

Capital assets, which are comprised of furniture, fixtures, equipment, and leasehold improvements, are reported in the government-wide financial statements. The School defines capital assets as having an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. If purchased or constructed, all capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are valued at their estimated acquisition value as of the date of donation. The costs of normal maintenance and repairs that do not add to the value of an asset or materially extend an asset's life are not capitalized.

Capital assets are depreciated using the straight-line method over estimated useful lives of 5 – 15 years.

Accrued Liabilities

Accrued liabilities consist principally of teacher, administrator, and other School employee salaries and benefits for the school program year ended June 30, 2019, but which were not yet paid as of that date.

Accrued Compensated Absences

Employees earn and accumulate vacation and sick leave at rates dependent on their position and length of employment. Vacation and sick leave used throughout the year is recorded as a payroll expenditure. An estimated long-term liability is accrued in the government-wide financial statements to the extent of unused vacation and sick leave that would be payable upon the principal's termination or retirement. No other employees are permitted to receive a payout.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses/expenditures and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from these estimates.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 2 – COMPLIANCE WITH NEVADA REVISED STATUTES

The School conformed to all significant statutory constraints on its financial administration during the year.

NOTE 3 – CASH

The School's cash balances as of June 30, 2019 were \$1,099,226, which were held in two institutions in Carson City, Nevada. Bank deposits are generally covered by FDIC insurance and are collateralized by the Office of the State Treasurer. Total bank balances as of June 30, 2019 were \$966,419; the uninsured bank balances of \$466,416 were collateralized by securities in the name of the Office of the State Treasurer.

NOTE 4 – NET POSITION AND FUND BALANCE CLASSIFICATIONS

Government-Wide Financial Statements

The government-wide Statement of Net Position represents the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources. Net position is typically categorized as invested in capital assets, restricted and unrestricted.

Net position is reported as restricted when there are statutory limitation on their use either through enabling legislation adopted by the School or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. As of June 30, 2019, no part of the School's net position is reported as restricted. Unrestricted net position represents the School's available financial resources.

Fund Financial Statements

Generally accepted accounting principles for governments requires fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. The School may report the following classifications:

Non-spendable – amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted – amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Committed – amounts that can be used only for specific purposes determined by a formal action of the Board. The Board is the highest level of decision making authority for the School. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board.

Assigned – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Management has assigned \$345,000 of the June 30, 2019 fund balance in the General Fund to cover anticipated costs of securing a new facility.

Unassigned – the residual classification for the General Fund.

When both restricted and unrestricted resources are available for use, it is the Board's policy to use externally restricted resources first, then unrestricted resources – committed, assigned, and unassigned – as needed, unless the Board has provided for otherwise in its commitment or assignment actions.

NOTE 5 – CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2019 is shown below:

Governmental Activities:	Balance July 1, 2018	Increases (Decreases)	Balance June 30, 2019
Classroom equipment	\$ 23,299	\$ -	\$ 23,299
Computer equipment	23,259	-	23,259
Playground equipment	28,941	-	28,941
Furniture and office equipment	10,552	-	10,552
Leasehold improvements	6,360	-	6,360
	<u>92,411</u>	<u>-</u>	<u>92,411</u>
Less accumulated depreciation	83,634	2,353	85,987
Capital Assets, net	<u>\$ 8,777</u>	<u>\$ (2,353)</u>	<u>\$ 6,424</u>

Depreciation expense of \$2,353 for the year ended June 30, 2019 has not been allocated to the School's functions/programs.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 6 – OPERATING LEASES

The School's principal facilities are leased under the terms of a cancellable lease contract through July 31, 2020 and a month-to-month rental agreement. Rental expense under the lease contracts was \$168,726 for the year ended June 30, 2019. The minimum rental expense under the lease and rental agreement is expected to be \$165,768 for the fiscal year ending June 30, 2020.

NOTE 7 – NEVADA PUBLIC EMPLOYEES' RETIREMENT SYSTEM

Plan Description

The School contributes to the State of Nevada Public Employees Retirement System (PERS) a statewide, cost-sharing, multiple-employer defined benefit plan administered by the State of Nevada that covers substantially all employees of the School. PERS provides retirement, disability, and death benefits, including annual cost of living adjustments, to plan members and their beneficiaries. Chapter 286 of the Nevada Revised Statutes establishes the benefit provisions provided to the participants of PERS. These benefit provisions may only be amended through legislation. PERS issues a publicly available financial report that includes financial statements and required supplementary information. That report is available on the web at <http://www.nvpers.org> or by writing to the State of Nevada Public Employees Retirement System, 693 West Nye Lane, Carson City, NV 89703-1599 or by calling (775) 687-4200.

Benefits Provided

Benefits provisions of the defined benefit pension plan are established by Nevada Revised Statutes (NRS or statute), which may be amended. Benefits are determined by the number of years of accredited service at time of retirement and the member's highest average compensation in any 36 consecutive months with special provisions for members entering the System on or after January 1, 2010, and on or after July 1, 2015. Benefit payments to which participants or their beneficiaries may be entitled under the plan include pension benefits, disability benefits, and survivor benefits.

Monthly benefit allowances for members are computed at 2.5% of average compensation for each accredited year of service prior to July 1, 2001. For service earned on and after July 1, 2001, this multiplier is 2.67% of average compensation. For members entering the System on or after January 1, 2010, there is a 2.5% multiplier, and for regular members entering PERS on or after July 1, 2015, there is a 2.25% multiplier. The System offers several alternatives to the unmodified service retirement allowance which, in general, allow the retired employee to accept a reduced service retirement allowance payable monthly during his or her lifetime and various optional monthly payments to a named beneficiary after his or her death.

Post-retirement increases are provided by authority of NRS 286.575-.579.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Vesting

Regular members are eligible for retirement at age 65 with five years of service, at age 60 with ten years of service, or at any age with thirty years of service. Regular members entering the System on or after January 1, 2010, are eligible for retirement at age 65 with five years of service, or age 62 with ten years of service, or any age with thirty years of service. Regular members who entered the System on or after July 2015, are eligible for retirement at age 65 with 5 years of service, or at age 62 with 10 years of service or at age 55 with 30 years of service or any age with 33 1/3 years of service.

The normal ceiling limitation on monthly benefit allowances is 75% of average compensation. However, a member who has an effective date of membership before July 1, 1985, is entitled to a benefit of up to 90% of average compensation. Members become fully vested as to benefits upon completion of five years of service.

Contributions

Contribution provisions are specified by state statute and may be amended only by action of the State legislature. Contribution rates are based on biennial actuarial valuations and are expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability. New hires, in agencies which did not elect the Employer-Pay Contribution (EPC) plan prior to July 1, 1983, have the option of selecting one of two contribution plans. One plan provides for matching employee and employer contributions, while the other plan provides for employer-pay contributions only. Under the matching Employee/Employer Contribution plan a member may, upon termination of service for which contribution is required, withdraw employee contributions which have been credited to their account. All membership rights and active service credit in the System are canceled upon withdrawal of contributions from the member's account. If EPC was elected, the member cannot convert to the Employee/Employer Contribution plan.

The School's contributions to the Plan were \$166,960 and \$177,314 for the years ended June 30, 2019 and 2018.

PERS Investment Policy

PERS' policies which determine the investment portfolio target asset allocation are established by the PERS Board. The asset allocation is reviewed annually and is designed to meet the future risk and return needs of the System.

The following was the PERS Board's adopted policy target asset allocation as of June 30, 2018:

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

<u>Investment Category</u>	<u>Target Allocation</u>	<u>Long-term Expected Real Rate of Return</u>
Domestic Stocks	42%	5.50%

International Stocks	18%	5.75%
U.S. Bonds	<u>30%</u>	0.25%
Total	<u>100%</u>	

Net Pension Liability

At June 30, 2019, the School reported a liability of \$2,405,386 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2018 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School's proportion of the net pension liability was based on the School's share of contributions in the PERS pension plan relative to the total contributions of all participating reporting units and members. At June 30, 2018, the School's proportion of the regular plan was .017638%, compared to its .017057% proportion measured as of June 30, 2017, a difference of .000581%.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the School calculated using the discount rate of 7.5%. The following also reflects what the School's net pension liability would be if it were calculated using a discount rate that is 1.00 percentage point lower (6.50%) or 1.00 percentage point higher (8.50%) than the current discount rate of 7.50%.

	<u>1% Decrease in Discount Rate (6.50%)</u>	<u>Discount Rate (7.5%)</u>	<u>1% Increase in Discount Rate (8.5%)</u>
Net Pension Liability	<u>\$ 3,668,116</u>	<u>\$ 2,405,386</u>	<u>\$ 1,356,131</u>

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the Comprehensive Annual Financial Report, available on the NVPERS website.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

Actuarial Assumptions

The System's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Investment rate of return	7.5% per year.
Salary increases	4.25% to 9.15% depending on service.
Inflation rate	2.75% per year.
Payroll growth	5.00% per year, including inflation.
Productivity pay increase	0.50%
Consumer Price Index	2.75%
Other assumptions	Same as those used in the June 30, 2018 funding actuarial valuation.

Actuarial assumptions used in the June 30, 2018 valuation were based on the results of the experience review completed in 2018.

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rate specified in statute. Based on that assumption, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Pension Expense, Deferred Outflows and Inflows of Resources Related to Pensions

For the year ended June 30, 2019, the School recognized pension expense of \$285,190. As of June 30, 2019, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 75,354	\$ 111,651
Changes in assumptions	126,749	
Net difference between projected and actual earnings on pension plan assets	-	11,452
Changes in proportion and differences between the School's contributions and proportionate share of contributions	413,092	-
School's contributions subsequent to the measurement date	166,960	-
	<u>\$ 782,155</u>	<u>\$ 123,103</u>

The School's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and (deferred inflows) of resources related to pensions will be recognized in pension expense as follows:

Years Ending June 30	Amount
2020	\$ 123,906
2021	83,513
2022	31,104
2023	89,276
2024	92,270
2025	72,024
	<u>\$ 492,092</u>

NOTE 8 – RISK MANAGEMENT

The School is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions and natural disasters for which the School carries commercial insurance. There have been no significant reductions in coverage from the prior year and settlements have not exceeded coverage in the past three years.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 9 – PRIOR PERIOD ADJUSTMENT

The School's sponsor and paymaster mandated a change in teacher contracts' annualization period, necessitating the payment of four paychecks in August of 2018 – two for the fiscal year ended June 30, 2018, and two for the current year. An error was made in recording accrued salaries and benefits as of June 30, 2018. The effect of this error was an understatement of the liability and expenditure/expense in the amount of \$63,567 as of and for the year ended June 30, 2018. As such, an adjustment has been recorded to restate the July 1, 2018 fund balance/net position by \$(63,567).

In addition, had this error not occurred, the effect on the Budgetary Comparison Schedule – Governmental Funds for the Year Ended June 30, 2018, would have been that no programs/functions were overexpended and total budgeted (final budget) expenditures exceeded actual expenditures by \$57,623.

NOTE 10 – NEW ACCOUNTING PRONOUNCEMENTS

In January 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 84, *Fiduciary Activities*. This statement establishes criteria for identifying fiduciary activities of all state and local governments. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. The School is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School's financial statements for the year ending June 30, 2020.

In June 2017, the Governmental Accounting Standards Board (GASB) issued Statement No. 87, *Leases*, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The School is currently evaluating the impact this standard will have on the financial statements when adopted. The provisions of this statement are effective for the School's financial statements for the year ending June 30, 2021.

CARSON MONTESSORI SCHOOL

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2019

NOTE 11 – SUBSEQUENT EVENT

Subsequent to the issuance of the auditors' report dated December 16, 2019, it was discovered that the amounts presented in the Budgetary Comparison Schedule (pages 32-33) for the "Final Budget" were not the amounts approved in the final amended budget dated June 19, 2019. The Budgetary Comparison Schedule (page 32-33) has been restated to present the correct "Final Budget" amounts and Note 2 to these financial statements has been revised.

**INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Trustees
Carson Montessori School
Carson City, Nevada

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Carson Montessori School (the School) as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the School's basic financial statements and have issued our report thereon dated December 16, 2019, except for Note 11, as to which the date is January 28, 2020.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

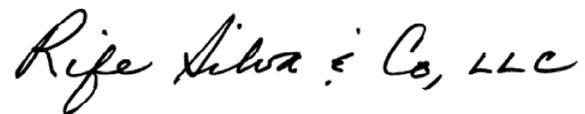

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

A handwritten signature in cursive script that reads "Rife Silva & Co, LLC".

Reno, Nevada

December 16, 2019, except for Note 11, as to which the date is January 28, 2020.
